

North Carolina Pretreatment Consortium's 2007 Peer Award

Scott Pickard

Scott has spent many years contributing to the field of Pretreatment and serving the North Carolina Pretreatment Consortium. He has been in pretreatment for 16 years and holds a BS degree, which he puts to great use, from East Carolina University. Before working in pretreatment he was a Laboratory Technician.

He has been involved with the North Carolina Pretreatment Consortium from the very beginning. He is a 10 year member of the dinosaur club and his contributions and accomplishments include:

Annual Conference (8 years of service)

1999-2004 Annual Conference Committee and speaker at the conference
2005 He chaired the Conference
Many years on the agenda committee

Officer

2000 NC-PC Section Chairman
2001 NC-PC State Chairman
2006 NC-PC Vice Chair

Special Events

2005 helped developed the program and worked on-site registration at PT 101 for Industrial Dischargers
2006 Presenter at PT 102 for Industrial Dischargers "Acronyms and Definitions"

Certification Class

2006 and 2007 Instructor for Grade I Class

Certifications

Grade I North Carolina Pretreatment Program Specialist
Grade III Wastewater Operator

Other Activities

Member of several other Committees for the Upper Cape Fear River Basin and also serves as backup ORC for his City's POTW. He has been praised for establishing effective relationships with his industrial customers and providing assistance in their efforts to maintain compliance with their permits.

He is always willing to help. Whether it's with advice on implementing pretreatment standards or completing a job for the Annual Conference Committee.
